

This technical drawing shows a bottle with a viewing window and a bottom-mounted device. The bottle has a neck with a screw cap. The main body features a large rectangular viewing window with rounded corners, labeled with 1, 2, 3, 4, 4a, 4b, and II. Below the window is a small rectangular component labeled 5. At the bottom of the bottle is a larger, more complex device labeled 6, which includes a central lens or sensor area labeled 5a, 5b, 6a, and 6b. A dashed line labeled II indicates a cross-section or internal structure of the bottom device.

This diagram shows the top view of a square-shaped optical element. It features a central circular region with concentric rings. Eight radial lines extend from the center to the corners of the square. The corners are chamfered. Reference numeral 1 points to the radial lines, and reference numeral 2 points to the chamfered corners.
